

Accelerating Switzerland's position as a leading FinTech hub

Zurich, 21.09.2016
Thomas Puschmann

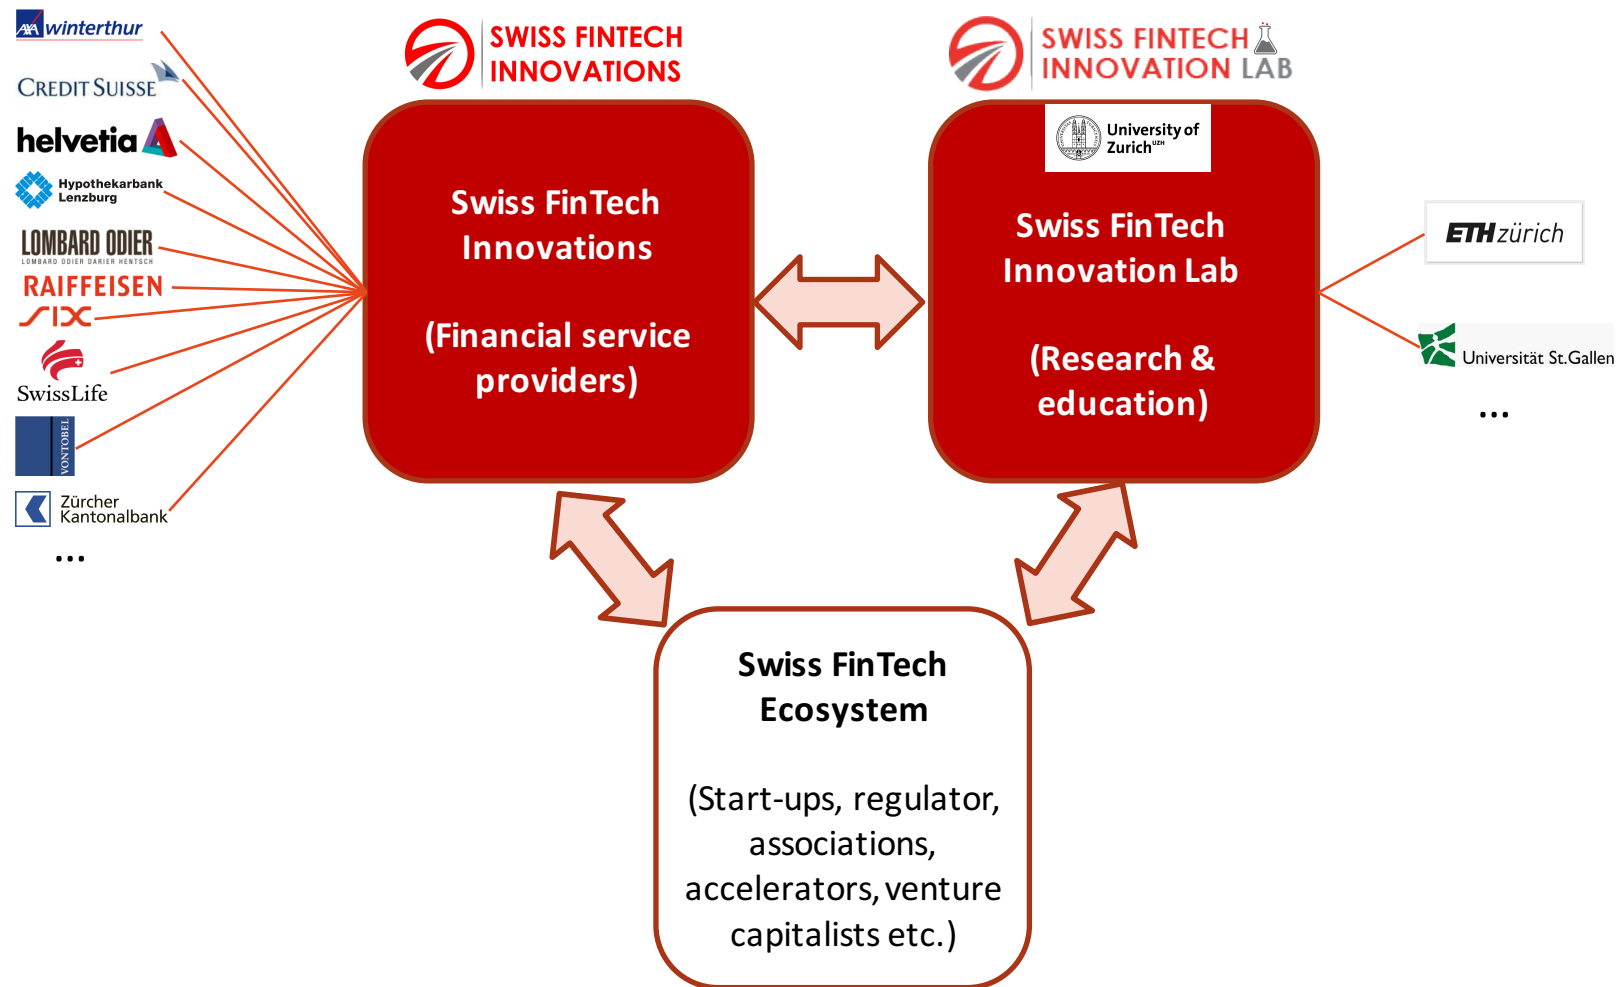

Your Gateway to Securities Standards !

Switzerland is in a good position to become one of the relevant FinTech Hubs

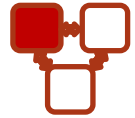

Comment: Dublin, Tel Aviv, etc. are other FinTech locations which are not in the list of the financial center ranking

The “Swiss FinTech Innovation Lab” and “Swiss FinTech Innovations” want to coordinate Swiss FinTech activities

Swiss Fintech Innovations has three major goals

CONNECT

Networking and raising awareness of stakeholders

FOSTER

Fostering an open dialogue with fintech startups

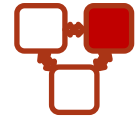

DO

Developing and implementing solutions on topics of common interest in working groups

- **Fostering partnerships and cooperation between financial institutions, fintechs, organizations, politicians** as well as public authorities
- Developing topics of common interest and influencing **regulations and standards**
- Directly **representing common interests** to politicians and the general public
- Providing **the contextual framework and infrastructure** required for scientific research and networking through the university's **Swiss FinTech Innovation Lab**

The Swiss FinTech Innovation Lab provides services in four areas

International FinTech network & expertise

Events and experts from international FinTech network & yearly held international FinTech conference

FinTech collaboration space

Physical collaboration space and monthly events for regular knowledge exchange on FinTech topics

FinTech technology platform & research environment

FinTech researchers & technology infrastructure as a development, prototyping & testing environment

FinTech education program

FinTech master program, FinTech graduate doctoral school and FinTech start-up school

Thanks for your attention!
